

Session 1

AG/06/056

G.K.C.S Godakanda

Potentials of Biochar as a soil amendment in comparison to some other materials.

AG/06/031

G.A.A. Chathuranga

Evaluation of young *Eucalyptus grandis* plantations established in Nawalapitiya region.

AG/06/216

R.G.U.A.Gunasekara

Cost effective applications on micropropagation of banana

AG/06/186

M.S.P.D.S.Wickramaratna

Use of phenotypic plasticity in selecting low-maintenance landscape plants

AG/ 06/ 73

K.L.D.S. Jayani

Development of a hydroponics system for tea (*Camellia sinensis* (L) O. Kuntze) for different research purposes.

Ag/06/175

R.D.G.P.Sumanadasa

Productivity Disparities and Introduce Balance Plant Nutrients for Yield Improvement in tea small holdings

Session 2

Ag/06/021

D.M.B.M.Bandara

Germination characteristics of rhizomes of common weeds in coconut plantations of Sri Lanka

Ag/06/125

P.C.Perera

Study of the yield and yield components of oil palm grown at Culloden estate in Kalutara district.

AG/06/280

M.C.Kuparnaka

Investigation of nutrient release pattern under the management of Gliricidia green manure in Coconut plantation.

Ag/06/208.

R.M.V.G.B.P.Rajapaksha

In vitro regeneration of *gerbera hybrida*

AG/06/048

K.C.L.P.Fernando

Study of floral biology of oil palm in Sri Lanka.

AG/06/271

H.D.D.C.Hadunpathirana

Effect of different ground covers on the improvement of soil fertility in coconut growing soils.

Session 3

AG/06/075

K.M.K. Jayasena

Study on weed dynamics and nutrient uptake (N, P, K) in rice grown under different moisture regimes

AG/06/209

W.A.G.Priyadarshani

Investigation of vermi compost as a plant growth promoter and diseased suppressive substrate.

AG/06/219

N.G.R.N. Wijedasa

Assess the agronomic nitrogen use efficiency of different fertilizers in paddy cultivation

AG/06/185

C.B.Wickrama

Effect of organic applications on soil in immature tea

AG/ 06/906

W.A.M.P. Wijesundara

Determination of a suitable substrate mix for gerbera pot plants

Ag/06/137

R.S.M.Rajapaksha

Effect of submergence on seed germination, seedling emergence and tolerance, in different rice varieties

Session 4

AG/06/059

M.A.N.P Gunawardana

Evaluation of different Tobacco (*Nicotiana tabacum*) varieties in the Yala season of Sri Lanka.

AG/06/144

R.M.E.S.Ratnayaka

Extending the ripening time of dessert type banana cultivar 'kolikuttu' using 1- methylcyclopropene (1-MCP)

AG/06/228

B.M.S. Eranga

Impact of water regimes on growth of tobacco seedlings in *Yala* season at Galewela, Sri Lanka.

AG/06/054

K. T. Geeganage

Harnessing phytoremediation potentials of locally available plant species for polluted soils in Sri Lanka.

Ag/06/279

R.M.T.C Ramanayake

Comparison of seedling production systems in a tobacco (*Nicotiana tabacum*) nursery.

AG/06/074

S.P.A.P.K. Jayarathna

Economic importance of rubber/tea inter cropping.

Session 5

AG/06/181

P.M.S. Vilochni

Morphological characterization of different sweet potato [*Ipomoea batatas* (L.) Lam] accessions.

AG/06/904

B.T.C.R.Jayarathne

Comparison of different packaging materials on water transmissions and storability of chilli seeds (*Capsicum annum*)

AG/06/218

D.H.B.R. Dassanayake

Extensive green roofs: a viable solution for urban heat island effect in Sri Lanka

AG/06/257

W.M.M.R.B. Wijekoon

Studies on the growth and nutrient uptake of selected traditional rice cultivars grown in the mid country wet zone of Sri Lanka.

AG/06/903

M.S. Sagarika

Feasibility of organic tomato production in conventional field

AG/06/212

E.AG.C. Athauda

Impact of stem, root and canopy characteristics on latex yield variation in *Hevea brasiliensis*.

Session 6

AG/06/092

K.P.S.S.Kumara

Identification of means and methods to remediate the yellowing and poor growth of gerbera grown inside the greenhouses

AG/06/206

R.S.K.D.H. Ramnayaka

Screening of aquatic plants for heavy metal uptake

AG/06/241

R.K. Pathmasiri

Evaluation of commonly used spacing for large scale commercial cultivation of sunflower in Sri Lanka.

Ag/06/033

I.R.Dammullage

Assess the impact of control release and bio-fertilizers on nutrient use efficiency and productivity in tea.

AG/06/201

H.A.V.K. Palansuriya

Shoot bending for improved plant training of cut roses (*Rosa hybrida*)

AG/06/264

H.M.R.S.Yapa

Comparison of fertilizer solutions for potato minituber production in a hydroponic system.

Session 7

AG/06/017

A.A.A.J Atapattu

Effect of rate of potassium fertilizer and time of harvesting on rice grain quality.

AG/06/211

M.K.C. Niroshani

A study on growth, yield and post harvest quality of oyster mushroom using different nitrogen sources In substrate.

Ag/06/238

W.M.S.C.J. Paranamana

Evaluation of wet weight basis assessment system for determination of dry rubber content in latex.

AG/06/188

N.A.A.K.Wickramasinghe

Effect of ethylene inhibitor, auxin and crop management on yield and quality of greenhouse gherkins

AG/06/226

H.A.N.S. Hettiarachchi

Effect of the size of grow bag and supplementary foliar nutrition on yield and quality of greenhouse gherkin cultivation

AG/06/277

W.G.D.M.A.S.B

Dissanayake

Analysis of household carbon footprint and the role of home gardens to sequester carbon dioxide in the city of Colombo.

Session 8

AG/06/136

R.M.C.L.I.Rajapaksha

Comparison of Arbuscular mycorrhizae (AM) isolates for inoculating ability of black pepper under different P levels.

AG/06/192

K.M.D.B. Wijerathna

Supplementary irrigation and plantation pit dimension on growth of cardamom during an intermittent dry period in the mid country intermediate zone.

AG/06/132

R.G.S.J.Premarathna

Effect of the cycocel on yield and quality of determinant and semi determinant Tomato Varieties

AG/06/78

J.H.M.M.Jayaweera

Studies on the yield performance of selected traditional rice cultivars grown in the mid country w zone of Sri Lanka

AG/06/117

K.B.Nayanananda

Investigation of low cost applications on *Dendrobium* micropropagation.

AG/06/220

K.I.Sandamali

Effect of presence of the apex and the length of scion of wedged graft avocado (*Persea americana* Mill.)
