

International Conference in Mathematics and Mathematics Education 2019

SUBMISSION GUIDELINES

1. Click on “Login to PCMS” button on the homepage. www.pdn.ac.lk/icmme
2. You will be directed to the main page of the PCMS system. Click on the “Begin Abstract Upload Process” button.

ICMME 2019: PCMS

✔ Save and Continue

4. Fill in all the highlighted fields in the abstract submission page. When submitting the abstract document, be sure to use the document made with abstract template. The same goes with the extended abstract. Click “save and continue” once you are done

Abstract Submission

Abstract Theme *

Maximum number of **letters** allowed is 250

Abstract Title *

B I U ABC | | Styles Paragraph

Path: p

Maximum number of **words** allowed is 300

Abstract *

B I U ABC | | Styles Paragraph

Path: p

Abstract Document *

Please do not include names of authors and affiliation information in your abstract document.

Allowed file extensions (.doc .docx .pdf) / Maximum file size is 10MB

Extended Abstract *

Please do not include names of authors and affiliation information in your extended abstract.

Allowed file extensions (.doc .docx .pdf) / Maximum file size is 10MB

Author Declaration Form The author declaration form must be submitted with the camera-ready version.

* essential fields

Save and Continue

- In the next section, you can add co-authors if necessary. Here, you will get to select the corresponding author. Please note that the corresponding author is responsible for all matters related to the abstract. Once you select the corresponding author, hit “continue”.

Co-author information

Title * **Name ***

Email *

Affiliation *

Contact Number

* essential fields

Add another co-author

If all the co-authors were added, you can select the corresponding author form below.

Assign Corresponding Author

No.	Type	Name	
1	First Author	Dr. Einstein A.	<input checked="" type="checkbox"/> Make Corresponding
2	Co-Author	Dr. Godel K	<input type="checkbox"/> Make Corresponding

Corresponding author is responsible for the Abstract work.

- In the next window, you will get a chance to check all the information. Please check this carefully, and hit “confirm”.

Confirm your information and content

Abstract Title	On the Connectedness of Irreducible Subgroups
Abstract Theme	Applied Mathematics
Abstract	Suppose we are given a complex, Levi-Civita, free monoid acting naturally on an universal Darboux space Π_{ω} . G. Archimedes's derivation of anti-almost everywhere characteristic scalars was a milestone in higher algebra. We show that there exists a maximal, freely reversible, connected and covariant left-pointwise co-generic element. Every student is aware that there exists a Grothendieck-Grassmann, quasi-finitely open, β -dimensional and pseudo-characteristic category. It was Germain who first asked whether numbers can be extended.
