FOREWORD

The University of Peradeniya is pleased to present its Statistical Handbook for the year 2022.

With its diverse range of resources and activities, data-driven and well-informed decision-making is crucial for the progress of an institution like the University of Peradeniya. Hence, the university has made all its efforts to issue annual statistical handbooks without delay.

The Statistical Handbook for the Year 2022 contains statistical information on student enrolment, graduate output, financial position, student and staff performances, and other valuable statistical information that plays a vital role in future planning. The statistics also provide all stakeholders with a clear picture of how the university performed and utilized its resources and outcomes in one of the most troubled times in the recent history of our country. The data also reflects the university's contribution to creating a knowledge-based society.

I would like to thank all staff who contributed to this Handbook by providing accurate data in a timely manner, and the staff of the statistics & Information division for compiling this Handbook.

The e-version of the Statistical Handbook is available at <https://www.pdn.ac.lk/publication> for your reference.

Students

This Chapter presents the admission of students to the University of Peradeniya. It contains a detailed compilation of data related to the number of students enrolled in undergraduate and postgraduate courses across the faculties and institutes in the year 2022. It provides valuable insights through thoughtfully curated tables that display trend data from previous years. The student enrollment figures accurately represent the number of undergraduate and postgraduate students enrolled in their respective programmes at the end of the reference year.

Finance

This Chapter presents a comprehensive overview of the financial aspects of the University. Income primarily includes government grants received for both recurrent and capital expenditures, while other income encompasses funds generated through various activities conducted by the University. On the other hand, expenditure reflects the actual financial outlays incurred on different programmes, as documented in the final accounts of the reference year.
