

Cultural Day program for members of the Faculty of Science

CULTURAL DAY
Celebrate Diversity

Wednesday
October 15, 2014
1pm - 5pm
Quadrangle of the Faculty of Science

DO NOT FORGET TO BRING YOUR CAMERA

HETC
Organized by University Development Grant of the Higher Education for the Twenty first Century (HETC) Project

A “Cultural Day” program organized by the Faculty of Science will be held on October 15, 2014 from 1:00 pm to 5:00 pm at the quadrangle of the Faculty of Science, for all students and staff of the Faculty under the University Development Grant (UDG) of the ‘Higher Education for the Twenty first Century (HETC)’ project. The event will be implemented to sensitize the staff and students on the need for interaction in a multi-linguistic society, while appreciating each others, culture, food and music.

Do not forget to bring your camera to capture the highlights of a memorable evening. Also, make sure to bring three more friends to take a picture with a peep-board that symbolizes ethnic harmony in Sri Lanka.

Participants can enjoy an array of traditional and modern games that will refresh their childhood memories. Winners of these games will not go home empty-handed.

Authentic Sri Lankan snacks along with Beli-mal will be served for all, after the fun session of games. The refreshments will settle you down to enjoy the rest of the evening allured with music.

Folk music, folk dance and modern musical items representing all ethnicities of Sri Lanka will be performed by talented students, academic and non-academic staff members of the Faculty of Science. All the ladies who are interested can enjoy the music while getting their hands decorated with beautiful henna designs.
