Faculty of Allied Health Sciences 10th Anniversary
A decade of dedicated journey in Nursing & Allied Health Professions

The Faculty of Allied Health Sciences which was inaugurated on 16th January 2007 is the only such faculty in Sri Lanka catering to the professional development of Nursing and Allied Health professions. It offers five professional degree programmes in Medical Laboratory Science, Nursing, Physiotherapy, Radiography, Radiotherapy and Bachelor of Pharmacy. Although very young, the faculty has contributed significantly to the improvement of Sri Lankan Health sector by being a pioneer in Nursing and Allied Health science education. The tenth Anniversary of the Faculty of Allied Health Sciences falls in the year 2017, and the faculty board has organized a commemorative event to celebrate this significant milestone on 5th April 2017 with the participation of its founding members, current academics, non-academics, students and the Alumni. This will provide an interactive forum for past and current stakeholders to share their experiences and plot out the way forward.
